Description

With 50W equivalent of a submachine gun phasers, the Devil's Own (British Commando Kill Squad) and the Legio Patria Nostra (French Foreign Legion Kill Squad) can attack and seriously damage all ground targets, their only downside is the short range of their weapons. While the British Commandos are good in melee with their combat knives and can make a "Scout" move, the FFL Kill Squad has the "Brave" skill meaning its harder to suppress them.

Minatures come pre-assembled, primed and unpainted. (but ready to play!)
