Description

This 3-man heavy ranger squad is an infantry army's worst nightmare: armed with dual victory-MGs, they can vaporize any infantry target and their rate of fire ensures that even cover isn't enough to survive the onslaught they unleash. As if it wasn't enough, their heavy armor is equipped with a jetpack ensuring there is nowhere safe to hide from the 'death from the skies'.

Miniatures come pre-assembled, primed and unpainted. (but ready to play!)
