Description
Legion: Nephilim Soldier

Contains one unassembled unpainted plastic model.

Everblight's long study of the elves has borne horrific fruit in the nephilim. Everblight selects certain pregnant Nyss to receive a special draught of his warlocks' blood. This blighted essence transforms the life growing within them into dragonspawn. Terrible hybrids of elf and spawn, nephilim soldiers possess the bestial strength and powers of dragonspawn while also being able to wield weapons as skillfully as the Nyss themselves.
