Description
Legion: Vayl, Consul of Everblight

Contains one unassembled and unpainted metal model.

As consul Vayl has achieved a position of regal authority, answering only to Thagrosh and Everblight himself and empowered to explore her mystical arts. She picks and chooses which conflicts require her personal intervention by peering into the mists of the future with her divinatory powers. Vayl has begun to unravel the mysteries of the athanc, and it was by this study that she modified her oraculus to resemble that perfection and then split it into three.
