Description
Orboros: Argus Moonhound

Contains one unassembled and unpainted metal model.

With a horrifying howl that chills the blood of its prey and unusually keen senses that allow it to detect enemy movement under almost any circumstances, the argus moonhound is a ferocious hunter and a favorite of the warlocks of the Circle Orboros. As it closes in on its prey, the moonhound uses its howl to flush the victim out into the open, where it tears the hapless creature to pieces with savage teeth.
