Description
Orboros: Scarsfell Griffon Light Warbeast

Contains one unassembled and unpainted metal model.

Griffons are predators that combine the sinewy grace of great hunting cats with the ferocity of birds of prey. Druids of the Circle Orboros have long tended griffon fledglings far from civilization and picked out those best suited to their needs. In the Scarsfell griffon they have found a hunter with a remarkable aptitude for stealth and ambush, one able to dive from great heights to surprise even well-camouflaged prey far below.
