Prussian Empire Gewitterwolke Class Airship

The dull pulsing engines of the Gewitterwolke Class Airship are often heard, but rarely do you see this airship emerge from the stormy skies until it is too late. With a crackling, thunderous shriek the Fore Tesla Coil unleashes hurt on any unfortunate enemy foolish enough to stray into the path of this aerial Armageddon. You may also want to reconsider your position should you be ill-fated enough to be darkened by its shadow; the arsenal of bombs this flyer carries ensures it leaves little standing in its wake.
