Description
Skorne: Mammoth

Contains one unassembled and unpainted resin/metal model.

Mammoths reign as some of the most destructive creatures known to the skorne. In addition to their raw power and aggressive disposition, their size and strength enable them to carry immense ordnance into battle. When commanded by a skorne warlock, the great beasts can lay down an earth-shattering fusillade capable of annihilating fortifications or smash through enemy formations with their deadly war gauntlets and tusks.
