Sky Pirates Assault Airship

Sabre Attack Airships, the most commonly encountered Sky Pirate vessel, circle their prey in graceful arcs, hammering them with fusillades of cannon fire; the shells fired by Sky Pirate weapons resemble shrieking skulls trailing streamers of raw magic. Once the enemy is softened up, the ship will descend, while its crew launch volleys of cruelly hooked boarding pikes known as rutags. 2 models per blister. Please note that Uncharted Seas models do not ship with stat cards or any other printed materials. Updated rules and statistics will be available from the 'Downloads' section of the Spartan Games website. Our models are made from either resin, pewter, or a combination of the two. Models supplied unpainted and unassembled. Some preparation work may be needed before assembly. We recommend that resin models are washed before painting.
